About me

During my life, I have tried many different areas of work. I worked as a video surveillance operator, sold plumbing fixtures, was the manager of a small business center, and was engaged in the advertising business. But I have always been interested in IT. I tried different courses and

stumbled upon RS-School by accident. I want to get the maximum knowledge and experience from this course. I am focused on achieving results and developing my skills and abilities. And I want to finally try myself in front-end development.

Skills

- HTML
- CSS
- JS
- Bootstrap
- Git

Code example

```
function customHttp() {
  return {
    get(url, cb) {
      try {
        const xhr = new XMLHttpRequest();
        xhr.open('GET', url);
        xhr.send();

        xhr.addEventListener('load', () => {
          if(Math.floor(xhr.status / 100) !== 2) {
            cb(`Error. Status code: ${xhr.status}`, xhr);
            return ;
          }
          const response = JSON.parse(xhr.responseText);
          cb(null, response);
        });

        xhr.addEventListener('error', () => {
          cb(`Error. Status code: ${xhr.status}`, xhr);
        });
      } catch (error) {
        cb(`Error. ${error}`);
      }
    },
  }
}
```

Experience

- Avia Tickets App (HTML, CSS, JS, Bootstrap, API)
 - [Deploy](#)
 - [GitHub](#)
- News App (HTML, CSS, JS, Bootstrap, API)
 - [Deploy](#)
 - [GitHub](#)
- ToDo Project (HTML, CSS, JS)
 - [Deploy](#)
 - [GitHub](#)

Education

- Moscow University for Industry and Finance "Synergy" (2016-2020)
- [Udemy: Modern javascript from beginning](#)

Language skills

- Russian (Native)
- English (A1)
